**Conversation:** regarding meeting

Richard, I am writing to let you know some things that have been going on with me over the last couple of weeks. Last Monday at 5:00 pm I went to Parkridge Valley hospital as an outpatient and spoke with a counselor about some things that I had been confronted with and the people that confronted me gave me the number to the hospital, because they felt I needed some help and help I did need. I can't go into all the details right now, but I can tell you the forefront of everything. I can't go into the details because they have me seeing a therapist and I have only met with the therapist one on one once; so I don't have all the answers but here is the forefront. In 2000 I was diagnosed with breast cancer and in 2001 my margins were clear after my first mammogram after the radiation treatment. So I have been literally cancer free since 2001. I started fabricating this story about cancer in 2003 and it has snowballed and finally came to a head. I am relieved for two reasons I don't have to keep up the charade anymore and I am finally getting some help to figure out why I did this in the first place. I wanted to let you know since you are my supervisor.
