Subject: Sheriff in booking

---

On 4-15-17 at approximately 1112 Sheriff Eric Watson pulled up to the call box outside booking and asked me to open up the Sally port. Once open Sheriff Watson pulled in and I met him In The Sally port where he asked me who Stephanie Anderson was and if she was in booking. I told him she was not and immediately checked the vision system to see if she was in custody. Upon finding out she was in custody and she wAs located In I pod Sheriff Watson asked me to have her brought to Booking. He then stepped back to the Sally port are and stated that once she was down there for me to bring her out to him. Once In the Sally port area Sheriff Watson began to question her regarding a rumor that supposedly started with her about his wife Tenille being arrested for meth. Inmate Anderson stated that inmate April Wakeman had told her and that she wasn't sure who had told April. Sheriff Watson then informed inmate Anderson to go back to I pod and let all the ladies know that the rumors regarding him, his family, and his administration needed to stop immediately or he would shut down everything in I pod and place them on lockdown. He then turned to me and told me to step to I pod also to inform all inmates present and also to put it on roll call. I then escorted inmate Anderson Back to I pod and immediately notified Lt. James Gregory of the situation. We then entered I pod with officers Christa Morrow and Santiago we had all inmates come out of their cells and stand at the wall next to them. I informed what the Sheriff had stated, they were then locked back down and we exited the pod.

Present in the vehicle with Sheriff Watson was Bernie King, his wife Tenille Watson, and Harry (Bernie's husband)

Sgt. Jason Brock
